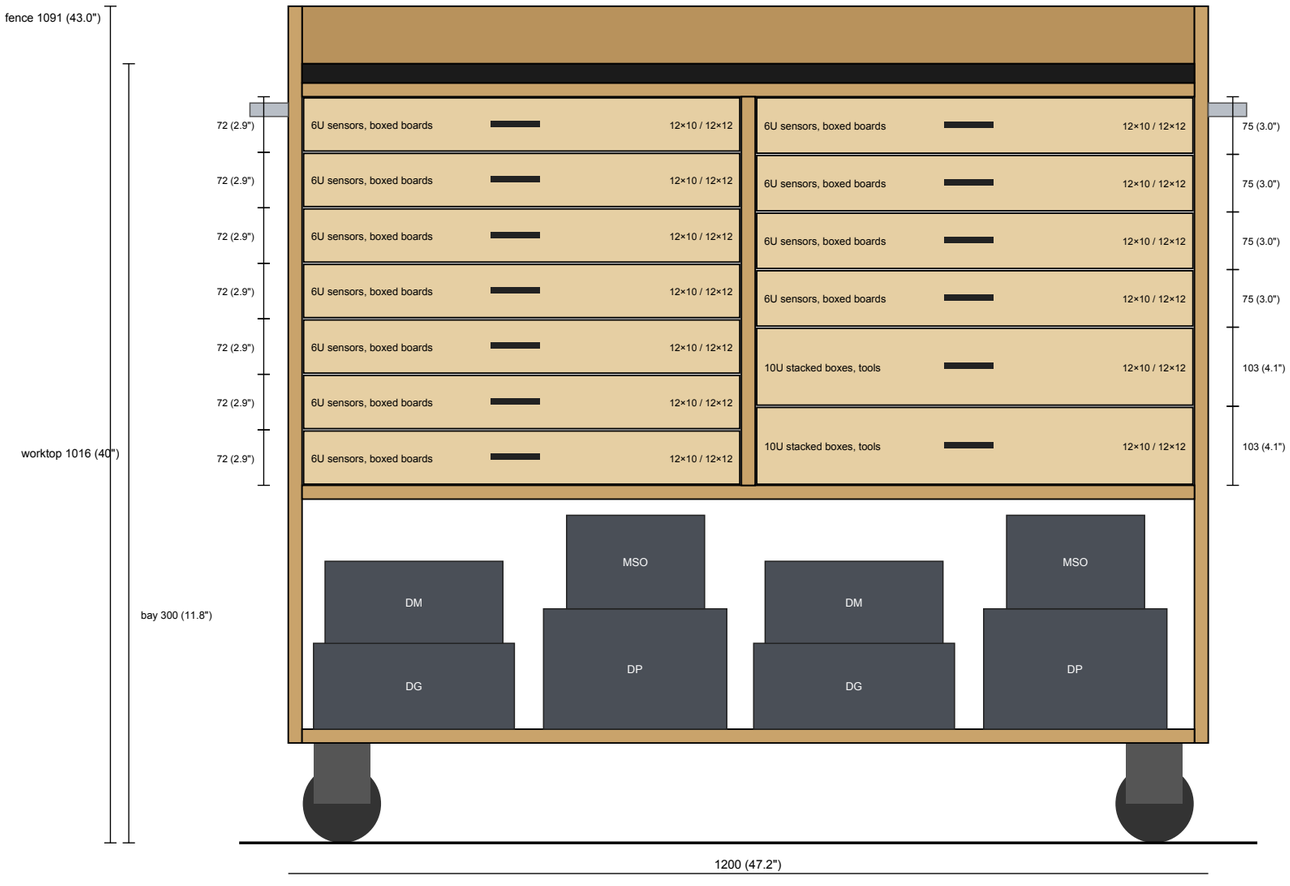
KAGU · INSTRUMENT CABINET — CHOSEN LAYOUT: 40" TALL · 600 mm DEEP · SPACED (1:8)

Two Rigol sets side by side in the low bay; drawers above. Dimensions in mm (inches). Drawer heights in gridfinity units (U = 7 mm).

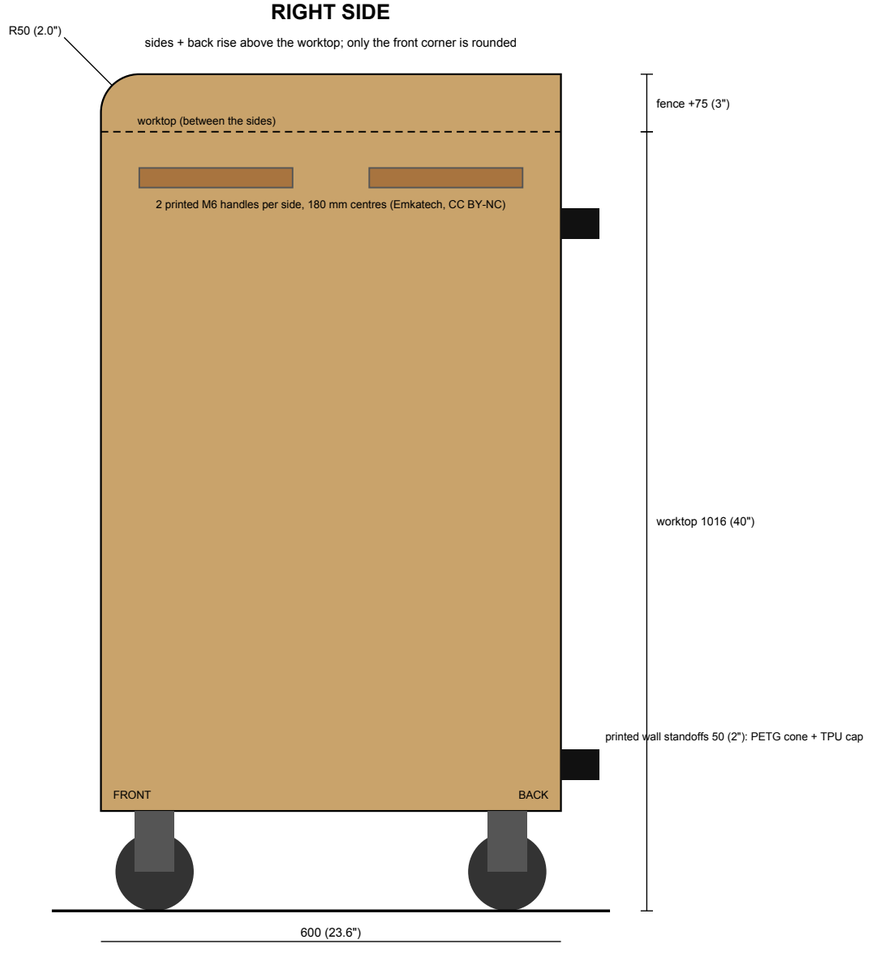
40" · SPACED — FRONT — 13 DRAWERS

spare height shared out as taller fronts · drawers 12 + 12 units wide × 10 deep (500) / 12 deep (600)



RIGHT SIDE

sides + back rise above the worktop; only the front corner is rounded



Pitch per drawer = bottom 12 + baseplate 5 + bin 7·U + lip 4.4 + clearance 4 + gap 3: 3U ≈ 49 (1.9") · 4U ≈ 56 (2.2") · 6U ≈ 70 (2.8") · 10U ≈ 98 (3.9").

6U: sensors (several per bin) and boxed boards one layer deep (3×2 bins, e.g. Raspberry Pi 5 boxes). 10U: boxed boards stacked two high, hand tools in Shadow Bins.

Depth: 500 mm (19.7") → 18" slides, drawers 12 × 10 units; 600 mm (23.6") → 22" slides, 12 × 12 units (+20%). Drawers 12 units (21") wide on standard 1/2" slides.
